

Masterclass					Focus Series
0900AM	<b>AI model validation &amp; responsible AI</b>	<b>Onboarding into the Nexus Scheme</b>	<b>Preparing Your Organization for Quantum-Safe Computing</b>	<b>Insurance Ecosystem for Electric Vehicle</b>	<b>FinVerse Hackathon</b>  The ASB Hackathon is an innovation-driven event designed to bring together 50 participants to solve a real-world challenge in the space of fintech.
	This session will explore AI testing and validation techniques, focusing on mitigating risks in financial institutions.	This session provides a technical overview of the Nexus Scheme, detailing essential requirements and preparatory steps for financial institutions (FIs) to facilitate a smooth onboarding process.	This workshop offers a structured approach to understanding and preparing for the transition to quantum-safe computing.	This topic covers the competitive dynamics of the new energy vehicles (NEV) market, the transformative role of NEV insurance, and how NEVs are driving advancements in automotive intelligence and customer engagement.	
1100AM		<b>Advancing Inclusion Outcomes through Digital Tools</b>	<b>Tokenisation fundraising</b>		
		This workshop will deep dive into how digital financial services can advance inclusion and literacy through digital platforms, products and policies.	This session will empower startups, SMEs, and growth-stage companies to explore regulated digital token fundraising of up to RM100 million, while ensuring compliance, investor protection, and technological readiness.		
1200PM					
1400PM	<b>Agentic AI: Driving Efficiency and Innovation in Financial Services</b>	<b>Advancing Cross-Border Payments - Landscape Overview &amp; Industry Innovation</b>		<b>Developing a Secure and Innovative Digital Asset Ecosystem in Malaysia*</b>	
	This session will equip you with the skills to seamlessly integrate AI into existing systems for enhanced efficiency and innovation.	This session features an overview of the wholesale cross-border payments landscape and industry efforts to enhance payment systems.		This session focuses on shaping Malaysia's digital asset landscape, emphasising secure regulation, tokenised deposits, and responsible innovation with blockchain to build a robust ecosystem.	
1500PM					
1600PM		<b>Future of Banks in the AI Era</b>			
		This session explore how financial institutions can further digitalise and automate processes to enhance customer experiences and security.			
1700PM					

Main Programme			Focus Series	
09 00 AM	Opening Remarks			
	Keynote Address: Unlocking Tomorrow: Transformative Innovations in Financial Services			
	This keynote will showcase the role of technology in driving Malaysia’s future financial ecosystem.			
10 00 AM	Navigating the Fintech Frontier: Innovation Meets Regulation			
	This session will explore the evolving interplay between innovation and regulation, and the critical roles regulators will play in shaping the future of fintech.			
11 00 AM	AI’s Economic Revolution: Power, Prosperity, or Peril?			Tokenisation 101- Redesign future process
	This keynote will explore how AI is transforming economies, challenging traditional models, increase inequality risks and discuss how to ensure equitable global growth. Keynote Address			In this workshop, learn the fundamentals of tokenisation, engage in hands-on activities to reimagine current workflows using digital tokens and smart contracts, and gain actionable insights from industry experts
